

Design & Manufacture of a RNLI Lifeboat

Guernsey: Wednesday 16th July – 7:30pm

Venue: Les Cotils – Carol Hindes Room

Presented by Gary Venning – RNLI

All welcome – free to attend – no tickets required

In his role as Principal surveyor for the RNLI, Gary is responsible for the three Channel Island lifeboat stations in Alderney, Guernsey and Jersey along with leading a team of 15 surveyors around the UK and Ireland maintain the RNLI lifeboat fleet and other associated assets.

In this talk, Gary Venning will discuss the following topics;

- Design challenges
- Manufacture
- Technology
- Trials & Testing

Gary has an extensive career in the world of boat building having worked for around 20 years building composite racing yachts and multihulls around the world. He then joined the RNLI as a surveyor for 14 years, before becoming the Principal surveyor for the last 7 years.

CIGPE is the representative body for professional engineering institutions in the Channel Islands. We organize several engineering related events each year including a series of technical lectures. These events are free to attend and contribute to Continued Professional Development. While aimed at engineers, our events are open to all members of the public.

Coming up: Forensic Investigation of Explosions
Guernsey: Wednesday 24th September
Jersey: Thursday 25th September
